### BUSAC Report

January 26th 2008

#### Events

O-Week report is complete and can be found with the rest of my attachments.

Unfortunately due to a lack of ticket sales, at this time the Raptors game which was supposed to run on January 25<sup>th</sup> will be postponed to a later date whereby more advertising and promotion can be done in order to ensure maximum ticket sales.

#### Clubs

The revision of the club hand book is currently under way. A new copy is being typed up so as to have the most up-to-date version as a word file to make it easier to modify for any future executives. The new version will be posted in the next couple of weeks.

An updated club list and descriptions was posted along side my report with the new clubs that were ratified a few weeks ago. We were unfortunately not able to ratify some clubs yesterday as I was off sick for the day but will be doing so ASAP.

#### BEAR

Currently Brock Aid has been running every Thursday night during bar night at Isaac's. There is still ample interest from the student body to volunteer for the program, though a new marketing strategy will hopefully increase those numbers. The program will be marketed to science programs, specifically those concentrating in the medical field as Brock Aid can provide some very meaningful experience to further enrich any students' career at Brock.

#### Foot Patrol

Foot Patrol has been running every night of the week with a good supply of volunteers as well as running the cab-line on Thursday night pub night. There have not been any serious issues running the line on Thursday night or any other night of the week, nevertheless the Foot Patrol program will also be undergoing a marketing push. Foot Patrol can be good volunteer

experience for anyone who is currently enrolled in the policing and criminal justice program and will be marketing as such to those programs in an effort to gain a larger volunteer base or promote the program for future years.

## Volunteering

A revamped volunteer page on the BUSU website will begin its construction in the next few weeks. This was something that was in my platform as VPSS which I would like to see completed before the end of my term. This website will display a new look for our SWAT volunteer team to hopefully encourage students to look to this website and possibly gather more volunteers. This process will take a few weeks to complete but I will keep council posted on the progress.

## Other Notes/Reminders/Comments/Concerns

It has come to my attention that I attached the wrong copy of my O-Week report last week and I must apologize. In my haste to get all of my BUSAC items out I posted a copy of my report which was littered with mistakes and I copied the wrong file for my O-Week report and I must apologize for any confusion this had caused. The proper report is posted along side my BUSAC report.

~ PEACE, LOVE... *Wrzosek* ~
