BUSAC Report

March 23rd 2009

Events

The creation of decorations has begun for the BUZIES. The night will be ipod themed so black and white will be the main colours, much like the commercials. Giant ipod shaped drapes are being created by our in house seamstress, Lianne Bradley.

Raptors tickets are still on sale! The trip is on Wednesday March 25th so please be sure to buy your tickets and see a great game. Tickets will be sold in the BUSU office for \$70. This includes a tour of the stadium by the VP's of maple leaf entertainment as well as the game. Get your tickets ASAP!

Clubs

The year is coming to an end and clubs are putting forth their end of year funding requests. Please be mindful about what some clubs are requesting and that many of the causes these clubs are running are very important. I will bring with me a copy of the clubs line item to give council a good idea of how much is left in the line and how much we can afford to spend with respect to all the funding requests.

BEAR

The purchasing of new jackets will be put on hold until next year. As the weather is getting warmer now and there are only 2 meetings left there is little need for jackets, therefore the expense will be made by the new executive next year if they see fit.

Volunteering

Volunteers Needed!! We are currently looking for volunteers to do polling hours next week during the elections from March 24th-26th. As many councillors running there will be few that are eligible but if you are please make sure to come and help out!

Volunteers Needed!!! (again). We need some volunteers to help set up the BUZIES. Many hands make light work so if anyone is available during the day on April 3rd please email myself or Kristen Hicks (volunteer@busu.net) and let us know your availability!

Foot Patrol

Joel has put together a transitional document for Sohail, next year's Safety Coordinator and I to take a look at. Included is very helpful advice on how to potentially the run the program more effectively. This should provide Sohail with more information as to how the program is run each night and give some insight into running it better. This will also be of great help to next year's Safety coordinator.

BOC

BOC is currently putting on a trip to the Ontario Science Centre which will be happening this Saturday March 21st. A bus will be taking members and students to the science centre whereby the day will be spent checking out all the attractions found within.

Other Notes/Reminders/Comments/Concerns

~ PEACE, LOVE... *Wrzosek* ~
